DESIGNED TO LAST, OUR HIGHLY DURABLE WALL AND CEILING SYSTEM FROM TEKKOR® IS A PERFECT FIT FOR ALMOST ANY APPLICATION.

Interlocking PVC Tongue & Groove Panels

Our new TekKor Wall & Ceiling Systems are designed to make your life easier during installation process and for the life of the build-out. These tough, attractive tongue-&-groove panels are extremely durable, provide a water-tight seal, and offer a lifetime of premium performance. Simple to install, these panels eliminate the need for most accessories, which can lower the cost of installation. The smooth, shiny surface of the installed TekKor provides easy cleaning and maintenance and the bright white finish contributes to a fresh interior appearance.
